### **Lesbian Camps**

Lesbian feminists have been organising live-in conferences, events and gatherings to exchange information and ideas, hold workshops on topics of interest, to work on political strategies and to socialise with other like-minded lesbians since the first Radicalesbian Conference in Sorrento Victoria in 1973.

In recent years, these lesbian camp get-togethers have been more informal with the program timetable of workshops and entertainment written up on butcher's paper by the participants as the need arose.

Owing to the sensitive nature of these lesbian camps in a society where lesbians are still discriminated against the programs of these camps have been embargoed till 2030.
